Customer No. 01933

Listing of Claims:

Claim 1 (Canceled).

2. (Currently Amended) A printer apparatus ~~according to claim 1,~~ for printing an image based on image data of a captured image, the apparatus comprising:

5 imaging condition detection means for detecting an imaging condition of the captured image;

pre-print process means for performing a pre-print process for the image data of the captured image in accordance with the imaging condition; and

10 print means for printing the image based on the image data processed by the pre-print process means;

wherein the imaging condition detection means detects the imaging condition based on the basis of information relating to the imaging condition, and the information relating to the imaging condition is added to the image data of the captured image.  
15

3. (Original) A printer apparatus for effecting printing based on image data of a captured image, the apparatus comprising:

Application No. 09/874,593  
Response to Office Action

Customer No. 01933

imaging sensitivity detection means for detecting an imaging  
5 sensitivity used for the captured image;

noise removal process means for performing a noise removal  
process for the image data of the captured image prior to the  
printing; and

control means for controlling the noise removal process  
10 means in accordance with the imaging sensitivity.

4. (Original) A printer apparatus according to claim 3,  
wherein the control means controls the noise removal process  
means such that a noise removal performance is enhanced as the  
imaging sensitivity increases.

5. (Original) A printer apparatus for effecting printing  
based on image data of a captured image, the apparatus  
comprising:

imaging zoom detection means for detecting a condition of  
5 use of an imaging zoom used for the captured image;

print zoom means for enlarging an image to be printed on a  
print film; and

control means for limiting a magnification of the image to  
be printed on the print film, in accordance with the condition of  
10 use of the imaging zoom.

6. (Currently Amended) An electronic camera comprising:  
the printer apparatus of claim ± 2; and  
electronic imaging means for electronically capturing an  
image,

5 wherein the printer apparatus prints ~~an~~ the image captured  
by the electronic imaging means.

7. (Currently Amended) An electronic camera comprising:  
the printer apparatus of claim 3; and  
electronic imaging means for electronically capturing an  
image,

5 wherein the printer apparatus prints ~~an~~ the image captured  
by the electronic imaging means.

8. (Currently Amended) An electronic camera comprising:  
the printer apparatus of claim 5; and  
electronic imaging means for electronically capturing an  
image,

5 wherein the printer apparatus prints an image captured by  
the electronic imaging means.
